REVOLUTIONISING  
HEALTH EDUCATION:  
THE IMPACT OF  
INNOVATIVE PRACTICE

COEHRE CONFERENCE

18-19-20 November 2024  
Ghent, Belgium

# THE OUTLINE

This year, we have retuned the conference in order to enhance your experience and provide you with even greater benefits. By participating in the conference, you will have the opportunity to

- expand your horizons by exploring fresh concepts, upcoming trends and diverse perspectives to enhance your thinking, spark creativity and inspire you to tackle your work from new angles.
- demonstrate your knowledge and expertise by delivering abstract presentations or engaging in discussions which could open doors to new opportunities
- reignite your passion for your work and acquire a renewed outlook by engaging with peers who share your interests, gaining insights from specialists and embracing novel concepts.
- co-creation as a method

Additionally, you will have the chance to exchange knowledge and experiences with other professionals, making this conference an ideal platform for building meaningful relationships.

We are committed to delivering a diverse and comprehensive conference programme that caters to your needs and interests.

# PRELIMINARY PROGRAMME

REVOLUTIONISING  
HEALTH EDUCATION:  
THE IMPACT OF  
INNOVATIVE PRACTICE

COEHRE Conference preliminary programme 2024

**REVOLUTIONIZING HEALTH EDUCATION:  
THE IMPACT OF INNOVATIVE PRACTICE**

MONDAY 18.11.2024	TUESDAY 19.11.2024	WEDNESDAY 20.11.2024			
09:00-12:00 Meet & Greet & Registration	09:00-11:00 Training sessions	09:00-10:30 Parallel sessions + posters			
12:30-14:15 Creating BIP Training: Simulation as a learning method Training: Living Labs Training: Integration AI in teaching + online assessment	11:00-11:45 Refreshments	PS1 6xPS	PS2 6xPS	PS3 6xPS	PS4 6xPS
	11:45-13:45 Training sessions				
	13:45-14:45 Lunch	10:30-11:00 Refreshments + poster viewing			
	14:55-17:00 Preparation pitches	14:55-17:00 General Assembly <i>Co-creating the future of COEHRE</i>	11:00-12:30 Parallel sessions		
14:15-15:15 Refreshments + poster viewing with authors	17:30 Keynote	PS1 6xPS	PS2 6xPS	PS3 6xPS	PS4 6xPS
15:20-17:20 Training sessions	18:30 Dinner on site	12:30 Round table Pitches Closing			
17:30 Opening reception					

COEHRE CONFERENCE

18-19-20 November 2024  
Ghent, Belgium

# TRAINING TRACKS

4 training tracks will be provided (based on first come, first served principle) (each person chooses 1 track):

## 1. Simulation as a learning method

Simulation has become an increasingly popular educational tool in healthcare, providing students with the opportunity to learn and practice essential skills in a safe and controlled environment. One key component of simulation-based training is the use of simulated patients, or actors trained to portray specific medical conditions or scenarios. Let's explore the benefits of using simulated patients in healthcare education, highlighting their ability to enhance learning outcomes and improve patient safety.

## 2. Integration of AI in teaching

The integration of AI technology in healthcare education has the potential to revolutionise the way healthcare professionals are trained and ultimately improve patient outcomes. The benefits of AI technology in healthcare education include improved quality of healthcare education, enhanced learning experiences for students, and better patient outcomes. However, several challenges must be addressed such as resistance to change from traditional teaching methods, cost implications, and ethical considerations. Therefore, healthcare educators must take a proactive approach to address these challenges and integrate AI technology into their teaching methods to prepare healthcare professionals for the future of healthcare.

# TRAINING TRACKS

## 3. Living Labs

Living Labs (LLs) are open innovation ecosystems in real-life environments using iterative feedback processes throughout a lifecycle approach of an innovation to create a sustainable impact.

They focus on co-creation, rapid prototyping & testing and scaling-up innovations & businesses, providing (different types of) joint-value to the involved stakeholders. In this context, living labs operate as intermediaries/orchestrators among citizens, research organisations, companies and government agencies/levels. Within a wide variety of living labs, they all have common characteristics, but multiple different implementations.

## 4. Creating BIPs

Finding the right partners is a critical step in creating a successful BIP. Utilising networking opportunities, conducting thorough research, and emphasizing mutual benefits can help identify partners who align with your goals. Building effective partnerships based on trust, communication, and flexibility will pave the way for a prosperous BIP.

# CONFERENCE

## Scientific programme

Researchers can look forward to parallel sessions, poster presentations and training opportunities.

As a researcher you aim to build connections and develop a network, and since the conference promotes co-creation, it would be beneficial to participate in the training sessions to get ideas, gain insights, develop methods, understanding and broaden your perspectives by interacting with other researchers/staff/experts in order to collaborate on research projects.

## Pitches

The pitches will serve as a platform for sharing ideas, insights and outcomes from training sessions, which could generate interest among participants from different training groups, facilitating the development of networks. These pitches have the potential to attract participants with similar interests and encourage others who wish to participate to share their contact details on the whiteboard, post-its or digital space, ultimately bringing together like-minded people. Each presentation will conclude with a call to action and a follow-up to help sustain the connections formed, potentially leading to future opportunities and collaborations.

Moreover, the pitches offer a valuable opportunity to bring back ideas and communicate key points and takeaways with your institution.

# CONFERENCE

## Keynote

Inspirational session

## Conference dinner

The Conference Dinner is designed to serve as a networking occasion. It offers you an excellent chance to enjoy food in a relaxed setting while getting to know each other and making new connections outside the main conference environment.
